## The U.S. Amateur Championship

The Amateur Championship is the oldest golf championship in this country - one day older than the U.S. Open. Except for an eight-year period, from 1965-72, when it was stroke play, the Amateur has been a match-play championship.

Over the years, as interest in the game grew and the number of quality players increased, it became necessary to establish a national handicapping system to determine who was eligible to compete in the Amateur. The USGA's first national handicap list, which was published for the 1912 Championship, was the forerunner of the present-day USGA Golf Handicap System.
